Honorable James B. Edwards
 Secretary of Energy
 US Department of Energy
 Washington, D.C. 20585

Dear Jim:

The Intelligence Community has completed an updated assessment (enclosed) of the likelihood and implications of terrorist actions against US nuclear weapon sites. The message of this assessment is that the threat is so serious that every precaution is called for.

25X1

The value of even an unsuccessful attack on a nuclear weapons facility is enhancing anxieties in Western Europe that some terrorists groups may make such attempts.

25X1

Respectfully yours,

/s/ William J. Casey
